

# SAFETY DATA SHEET

## 1. Identification

|                                      |   |
|--------------------------------------|---|
| <b>Product identifier</b>            | <b>RM-10@ 5011</b>  |
| <b>Other means of identification</b> | None.   |
| <b>Recommended use</b>               | water supply; sewerage, waste management and remediation activities: remediation activities and other waste management services   |
| <b>Recommended restrictions</b>      | Workers (and your customers or users in the case of resale) should be informed of the potential presence of respirable dust and respirable crystalline silica as well as their potential hazards. Appropriate training in the proper use and handling of this material should be provided as required under applicable regulations. |

## Manufacturer/Importer/Supplier/Distributor information

### Manufacturer

|                               |   |                               |  |
|-------------------------------|---|-------------------------------|--|
| <b>Company name</b>           | CETCO Oilfield Services Company an MTI Company  |                               |  |
| <b>Address</b>                | 2870 Forbs Avenue<br>Hoffman Estates, IL 60192<br>United States                           |                               |  |
| <b>Telephone</b>              | General Information   | 800 527-9948                  |  |
| <b>Website</b>                | <a href="http://www.cetcooilfieldservices.com/">http://www.cetcooilfieldservices.com/</a> |                               |  |
| <b>E-mail</b>                 | safetydata@mineralstech.com   |                               |  |
| <b>Emergency phone number</b> | Emergency   | 1.866.519.4752/1 760 476 3962 |  |
| <b>Americas</b>               | 1.866.519.4752 (US, Canada, Mexico) 1 760 476 3962  |                               |  |

## 2. Hazard(s) identification

|                              |   |             |  |
|------------------------------|---|-------------|--|
| <b>Physical hazards</b>      | Not classified.   |             |  |
| <b>Health hazards</b>        | Skin corrosion/irritation   | Category 2  |  |
|                              | Serious eye damage/eye irritation   | Category 2B |  |
|                              | Carcinogenicity   | Category 1A |  |
|                              | Specific target organ toxicity, repeated exposure                                   | Category 1  |  |
| <b>Environmental hazards</b> | Not classified.   |             |  |
| <b>OSHA defined hazards</b>  | Not classified.   |             |  |
| <b>Label elements</b>        |  |             |  |

|                                |  |
|--------------------------------|--|
| <b>Signal word</b>             | Danger   |
| <b>Hazard statement</b>        | Causes skin irritation. Causes eye irritation. May cause cancer. Causes damage to organs through prolonged or repeated exposure.   |
| <b>Precautionary statement</b> |  |
| <b>Prevention</b>              | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.   |
| <b>Response</b>                | If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. |
| <b>Storage</b>                 | Store locked up.   |
| <b>Disposal</b>                | Dispose of contents/container in accordance with local/regional/national/international regulations.  |

|  |   |
|--|---|
| <b>Hazard(s) not otherwise classified (HNOC)</b> | None known.   |
| <b>Supplemental information</b>                  | 10% of the mixture consists of component(s) of unknown acute oral toxicity. 54% of the mixture consists of component(s) of unknown acute dermal toxicity. 10% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 54% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment. |

### 3. Composition/information on ingredients

#### Mixtures

| Chemical name                            | Common name and synonyms | CAS number   | %         |
|--|--------------------------|--------------|-----------|
| TRADE SECRET*                            |                          | Proprietary* | 44        |
| QUARTZ (SIO <sub>2</sub> )               |                          | 14808-60-7   | 3 - < 5   |
| CRISTOBALITE                             |                          | 14464-46-1   | 1 - < 3   |
| Other components below reportable levels |                          |              | 50 - < 60 |

#### Impurities

| Chemical name           | Common name and synonyms          | CAS number | % |
|-------------------------|-----------------------------------|------------|---|
| INERT OR NUISANCE DUSTS | PARTICLES NOT OTHERWISE REGULATED | SEQ250     |   |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

**Composition comments** Occupational Exposure Limits for impurities are listed in Section 8.

### 4. First-aid measures

|   |  |
|---|--|
| <b>Inhalation</b>   | Move to fresh air. Call a physician if symptoms develop or persist.  |
| <b>Skin contact</b>   | Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.  |
| <b>Eye contact</b>  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.  |
| <b>Ingestion</b>  | Rinse mouth. Get medical attention if symptoms occur.  |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort. Skin irritation. May cause redness and pain. Prolonged exposure may cause chronic effects.  |
| <b>Indication of immediate medical attention and special treatment needed</b> | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.   |
| <b>General information</b>  | IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. |

### 5. Fire-fighting measures

|  |   |
|--|---|
| <b>Suitable extinguishing media</b>                                  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO <sub>2</sub> ).                      |
| <b>Unsuitable extinguishing media</b>                                | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| <b>Specific hazards arising from the chemical</b>                    | During fire, gases hazardous to health may be formed.   |
| <b>Special protective equipment and precautions for firefighters</b> | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| <b>Fire fighting equipment/instructions</b>                          | Move containers from fire area if you can do so without risk.                                 |
| <b>Specific methods</b>  | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| <b>General fire hazards</b>  | No unusual fire or explosion hazards noted.   |

### 6. Accidental release measures

|  |  |
|--|--|
| <b>Personal precautions, protective equipment and emergency procedures</b> | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |
|--|--|

**Methods and materials for containment and cleaning up**

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. Put material in suitable, covered, labeled containers. For waste disposal, see section 13 of the SDS.

**Environmental precautions**

Avoid discharge into drains, water courses or onto the ground.

**7. Handling and storage****Precautions for safe handling**

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep formation of airborne dusts to a minimum. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Should be handled in closed systems, if possible. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**

Store locked up. Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

**8. Exposure controls/personal protection****Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

**US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)**

| Components                                  | Type | Value                  | Form             |
|---|------|------------------------|------------------|
| CRISTOBALITE (CAS 14464-46-1)               | PEL  | 0.05 mg/m <sup>3</sup> | Respirable dust. |
| QUARTZ (SiO <sub>2</sub> ) (CAS 14808-60-7) | PEL  | 0.05 mg/m <sup>3</sup> | Respirable dust. |

**US. OSHA Table Z-3 (29 CFR 1910.1000)**

| Components                                  | Type | Value                  | Form                 |
|---|------|------------------------|----------------------|
| CRISTOBALITE (CAS 14464-46-1)               | TWA  | 0.05 mg/m <sup>3</sup> | Respirable.          |
|   |      | 1.2 mppcf              | Respirable.          |
| QUARTZ (SiO <sub>2</sub> ) (CAS 14808-60-7) | TWA  | 0.1 mg/m <sup>3</sup>  | Respirable.          |
|   |      | 2.4 mppcf              | Respirable.          |
| Impurities                                  | Type | Value                  | Form                 |
| INERT OR NUISANCE DUSTS                     | TWA  | 5 mg/m <sup>3</sup>    | Respirable fraction. |
|   |      | 15 mg/m <sup>3</sup>   | Total dust.          |
|   |      | 50 mppcf               | Total dust.          |
|   |      | 15 mppcf               | Respirable fraction. |

**US. ACGIH Threshold Limit Values**

| Components                                  | Type | Value                   | Form                 |
|---|------|-------------------------|----------------------|
| CRISTOBALITE (CAS 14464-46-1)               | TWA  | 0.025 mg/m <sup>3</sup> | Respirable fraction. |
| QUARTZ (SiO <sub>2</sub> ) (CAS 14808-60-7) | TWA  | 0.025 mg/m <sup>3</sup> | Respirable fraction. |

**US. NIOSH: Pocket Guide to Chemical Hazards**

| Components                                  | Type | Value                  | Form             |
|---|------|------------------------|------------------|
| CRISTOBALITE (CAS 14464-46-1)               | TWA  | 0.05 mg/m <sup>3</sup> | Respirable dust. |
| QUARTZ (SiO <sub>2</sub> ) (CAS 14808-60-7) | TWA  | 0.05 mg/m <sup>3</sup> | Respirable dust. |

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

|  |  |
|--|--|
| <b>Exposure guidelines</b>   | Occupational exposure to nuisance dust (total and respirable) and respirable crystalline silica should be monitored and controlled.  |
| <b>Appropriate engineering controls</b>                                      | Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower. |
| <b>Individual protection measures, such as personal protective equipment</b> |  |
| <b>Eye/face protection</b>   | Applicable for industrial settings only. Wear safety glasses with side shields (or goggles).   |
| <b>Skin protection</b>   |  |
| <b>Hand protection</b>   | Applicable for industrial settings only. Wear appropriate chemical resistant gloves.   |
| <b>Other</b>   | Applicable for industrial settings only. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.  |
| <b>Respiratory protection</b>  | Applicable for industrial settings only. Use a particulate filter respirator for particulate concentrations exceeding the Occupational Exposure Limit.   |
| <b>Thermal hazards</b>   | Wear appropriate thermal protective clothing, when necessary.  |
| <b>General hygiene considerations</b>  | Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.   |

## 9. Physical and chemical properties

### Appearance

|   |                       |
|---|-----------------------|
| <b>Physical state</b>                               | Solid.                |
| <b>Form</b>   | Solid.                |
| <b>Color</b>  | Not available.        |
| <b>Odor</b>   | Not available.        |
| <b>Odor threshold</b>                               | Not available.        |
| <b>pH</b>   | 3.5                   |
| <b>Melting point/freezing point</b>                 | Not available.        |
| <b>Initial boiling point and boiling range</b>      | Not available.        |
| <b>Flash point</b>                                  | Not available.        |
| <b>Evaporation rate</b>                             | Not available.        |
| <b>Flammability (solid, gas)</b>                    | Not available.        |
| <b>Upper/lower flammability or explosive limits</b> |                       |
| <b>Flammability limit - lower (%)</b>               | Not available.        |
| <b>Flammability limit - upper (%)</b>               | Not available.        |
| <b>Explosive limit - lower (%)</b>                  | Not available.        |
| <b>Explosive limit - upper (%)</b>                  | Not available.        |
| <b>Vapor pressure</b>                               | 0.00004 hPa estimated |
| <b>Vapor density</b>                                | Not available.        |
| <b>Relative density</b>                             | Not available.        |
| <b>Solubility(ies)</b>                              |                       |
| <b>Solubility (water)</b>                           | 100 %                 |
| <b>Partition coefficient (n-octanol/water)</b>      | Not available.        |
| <b>Auto-ignition temperature</b>                    | Not available.        |
| <b>Decomposition temperature</b>                    | Not available.        |
| <b>Viscosity</b>                                    | Not available.        |
| <b>Other information</b>                            |                       |
| <b>Explosive properties</b>                         | Not explosive.        |

|                             |                |
|-----------------------------|----------------|
| <b>Oxidizing properties</b> | Not oxidizing. |
| <b>Percent volatile</b>     | 0 % estimated  |
| <b>VOC</b>                  | CARB           |

## 10. Stability and reactivity

|   |   |
|---|---|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport.                           |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.   |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.   |
| <b>Conditions to avoid</b>                | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials. |
| <b>Incompatible materials</b>             | Strong oxidizing agents.  |
| <b>Hazardous decomposition products</b>   | No hazardous decomposition products are known.  |

## 11. Toxicological information

### Information on likely routes of exposure

|                     |  |
|---------------------|--|
| <b>Inhalation</b>   | Prolonged inhalation may be harmful.   |
| <b>Skin contact</b> | Causes skin irritation.                |
| <b>Eye contact</b>  | Causes eye irritation.                 |
| <b>Ingestion</b>    | Expected to be a low ingestion hazard. |

**Symptoms related to the physical, chemical and toxicological characteristics** Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort. Skin irritation. May cause redness and pain.

### Information on toxicological effects

**Acute toxicity** Not known.

| <b>Components</b> | <b>Species</b> | <b>Test Results</b> |
|-------------------|----------------|---------------------|
|-------------------|----------------|---------------------|

CRISTOBALITE (CAS 14464-46-1)

#### Acute

#### **Oral**

|      |     |               |
|------|-----|---------------|
| LD50 | Rat | > 22500 mg/kg |
|------|-----|---------------|

**Skin corrosion/irritation** Causes skin irritation.

**Serious eye damage/eye irritation** Causes eye irritation.

### Respiratory or skin sensitization

**Respiratory sensitization** Not a respiratory sensitizer.

**Skin sensitization** This product is not expected to cause skin sensitization.

**Germ cell mutagenicity** No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

### Carcinogenicity

In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that "carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs." (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.) In June 2003, SCOEL (the EU Scientific Committee on Occupational Exposure Limits) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis (and, apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk..." (SCOEL SUM Doc 94-final, June 2003) According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits. May cause cancer. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled.

### IARC Monographs. Overall Evaluation of Carcinogenicity

CRISTOBALITE (CAS 14464-46-1)

1 Carcinogenic to humans.

QUARTZ (SIO<sub>2</sub>) (CAS 14808-60-7) 1 Carcinogenic to humans.  
**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)**

CRISTOBALITE (CAS 14464-46-1) Cancer  
QUARTZ (SIO<sub>2</sub>) (CAS 14808-60-7) Cancer

**US. National Toxicology Program (NTP) Report on Carcinogens**

CRISTOBALITE (CAS 14464-46-1) Known To Be Human Carcinogen.  
Reasonably Anticipated to be a Human Carcinogen.  
QUARTZ (SIO<sub>2</sub>) (CAS 14808-60-7) Known To Be Human Carcinogen.

**Reproductive toxicity** This product is not expected to cause reproductive or developmental effects.  
**Specific target organ toxicity - single exposure** Not classified.  
**Specific target organ toxicity - repeated exposure** Causes damage to organs through prolonged or repeated exposure.  
**Aspiration hazard** Not an aspiration hazard.  
**Chronic effects** Prolonged inhalation may be harmful. Causes damage to organs through prolonged or repeated exposure. Prolonged exposure may cause chronic effects.

**12. Ecological information**

**Ecotoxicity** The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.  
**Persistence and degradability** No data is available on the degradability of any ingredients in the mixture.  
**Bioaccumulative potential** No data available.  
**Mobility in soil** No data available.  
**Other adverse effects** No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

**13. Disposal considerations**

**Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.  
**Local disposal regulations** Dispose in accordance with all applicable regulations.  
**Hazardous waste code** The waste code should be assigned in discussion between the user, the producer and the waste disposal company.  
**Waste from residues / unused products** Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).  
**Contaminated packaging** Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

**14. Transport information**

**DOT** Not regulated as dangerous goods.  
**IATA** Not regulated as dangerous goods.  
**IMDG** Not regulated as dangerous goods.  
**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not applicable.

**15. Regulatory information**

**US federal regulations** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.  
**Toxic Substances Control Act (TSCA)**  
**TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)**  
Not regulated.  
**CERCLA Hazardous Substance List (40 CFR 302.4)**  
Not listed.

**SARA 304 Emergency release notification**

Not regulated.

**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)**
